

Tentative Online Year Plan 2020-21

Words from Academic Coordinator

Mrs. Arti Goyal

Competency is a set of skills, abilities, knowledge that helps an individual to perform a given task in real life. Being educators, it is our duty to ensure that a temporary break in schooling does not become a permanent one for vulnerable children. Now is the time to plan and prepare for the immediate future of education. To start up again, knowing that schools and students face unprecedented challenges in the wake of the acute phase of the COVID-19 pandemic, we the members of Year Plan Committee under the able guidance and support of our Principal have planned Tentative Online Year Plan for the session 2020-21 giving online classes along with the home activities for the students from June to December month so that the entire curriculum of the session fixes in through the virtual classes and the continuity of learning for all goes on without any interruption.

Stay Home, Stay Safe.

Thank You
